

MUDAVATH SANTHOSH

+91 7981506266 — mudavathsanthosh001@gmail.com — [LinkedIn](#) — [GitHub](#) — [Portfolio](#)

Summary

AI Developer with hands-on expertise in LLM-powered systems, RAG pipelines, and cloud-deployed AI applications. Delivered up to 70% reduction in manual effort through intelligent automation using Python, NLP, and Deep Learning. Skilled in FastAPI and multi-cloud platforms (AWS, GCP, Azure). Currently enrolled in the McKinsey Forward Programme; community leader with 25-40% engagement growth across 300+ students.

Education

ACE Engineering College, Hyderabad

2023 – 2027

B.Tech, Artificial Intelligence & Data Science — GPA: 8.2 / 10

Telangana State Board

2021 – 2023

Class 12th (MPC) — Grade: A

Projects

IntelliHire Agent

Python, LLMs, RAG, FastAPI, Vector DB,

- Engineered an end-to-end AI hiring assistant with LLM-based agentic workflows, automating candidate screening and cutting manual evaluation effort by up to 70%.
- Implemented RAG pipelines with vector database integration for accurate, document-grounded Q&A across resumes and job descriptions.
- Deployed a production-ready FastAPI REST service with robust evaluation metrics and enterprise-grade reliability testing.

Stellar Python Game

Python, Flask, REST API, Real-Time Data Processing,

- Built a scalable game application with real-time data handling, dynamic API integration, and event-driven architecture using Python and Flask.
- Optimized latency under concurrent load via performance profiling; validated with end-to-end testing for a deployment-ready product.

AlphaCast – Trading Signal Engine

TypeScript, Real-Time Data Processing, Monad Blockchain, API, Supabase,

- Solved the signal-to-noise problem in crypto trading by filtering signals through trusted Farcaster wallet identity instead of anonymous sources
- Unified three live data sources – Neynar API (identity), Envio indexer (on-chain data), and 0x/Kuru DEX APIs (execution) – into a single real-time pipeline
- Delivered instant, trust-verified buy/sell/mint alerts on Monad Testnet, replacing manual wallet monitoring

Volunteering

Campus Ambassador – Cognizance, IIT Roorkee

Jan 2026 – Mar 2026

Annual Technical Fest — Telangana, India

- Drove a 25-30% increase in registrations via targeted outreach, reaching 300+ students; coordinated across 5+ student clubs.

Google Student Ambassador – Google Student Ambassadors India

Aug 2025 – Dec 2025

Workshops, Hackathons & Tech Talks (Cloud, AI/ML, Android) — India

- Delivered 25-40% higher engagement over prior events; promoted Google certifications and grew a peer-learning community campus-wide.

Programmes & Leadership

McKinsey Forward Programme – McKinsey & Company

April 2026 – June 2026

Online / Global

- Developing structured problem-solving, data-driven decision-making, and leadership skills in a globally competitive cohort.

Technical Skills

Languages: Python (primary), C, Java, TypeScript

AI / ML: LLMs, RAG, NLP, Deep Learning, Machine Learning, Prompt Engineering, Vector Databases, PyTorch

Frameworks: FastAPI, Flask, LangChain (familiar)

Tools: Pandas, NumPy, Git, GitHub, REST APIs, Supabase

Cloud: Google Cloud Platform (GCP), AWS, Microsoft Azure

Certifications

- Oracle Cloud Infrastructure – Oracle
- Microsoft Azure AI Fundamentals (AI-900) – Microsoft
- Data Analysis Using Python – IBM / Coursera
- Prompt Engineering For Everyone – DeepLearning.AI
